ADITHYA VADDADI

ML Engineer Intern | Python • RAG • LangGraph • NLP | B.Tech AI/
ML @ Sphoorthy Engineering
Hyderabad, Telangana, India

Summary

AI/ML Engineer building production-grade systems with Python, LangGraph, RAG, and Pinecone. B.Tech AI/ML @ Sphoorthy Engineering College (2027) | ML Intern @ Infosys Springboard My flagship project — ClauseAI — is a multi-agent RAG system for legal document analysis, built with LangGraph + Pinecone. Also built a Food Classification model hitting 87% accuracy using deep learning. Skills: Python • PyTorch • TensorFlow • LangGraph • RAG - Pinecone • NLP • Scikit-learn • Pandas • FastAPI adithyaadi104@gmail.com github.com/adithyavaddadi

Experience

Infosys Springboard

Machine Learning Intern

December 2025 - February 2026 (3 months)

- Developed supervised learning models using Python and Scikit-learn on real-world datasets, improving model

accuracy through feature engineering and preprocessing

- Built and evaluated NLP pipelines for text classification tasks using TensorFlow and Pandas

- Implemented data preprocessing workflows reducing training data preparation time by ~30%

- Participated in weekly code reviews, applying ML best practices for model versioning and evaluation

Education

Sphoorthy Engineering College

Bachelor of Technology · (May 2023 - May 2027)

VAGDEVI JUNIOUR COLLEGE
